

Self contained luminaire

Torlono

Pendant mounted luminaire

Product Description

This stylish circular pendant luminaire can produce an interesting back light effect which highlights architectural features. The opal impact resistant polycarbonate diffuser reduces glare and provides an even level of illumination.

High efficiency 2D compact fluorescent lamps are incorporated for reduced energy consumption and combined with high frequency control gear there is flicker free operation, instant start and an extended lamp life. Emergency versions are also available.

Product Features

- **Energy efficient high frequency control gear as standard**
- **Four colour shades of back light - white (standard), blue, green and red**
- **Easy lamp replacement and maintenance**
- **Opal impact resistant polycarbonate diffuser & spun metal gallery**
- **High quality sub components used for an extended service life.**
- **Mains and emergency versions available**

Applications

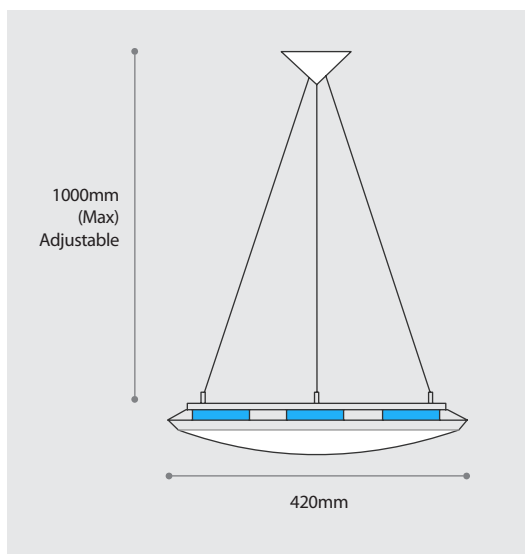

- **Schools**
- **Libraries**
- **Reception areas**
- **Leisure Centres**
